PROFESSIONAL SUMMARY

Cybersecurity graduate student with hands-on experience in Security Operations Center (SOC), Vulnerability Assessment and Penetration Testing (VAPT), Digital Forensics, and Python security automation. Skilled in Kali Linux, Wireshark, Wazuh, OWASP ZAP, Burp Suite, Nmap, FTK, Autopsy, and Scapy through internships, academic laboratories, and self-developed cybersecurity projects. Passionate about threat detection, incident response, and building secure enterprise solutions.

PROFESSIONAL EXPERIENCE

Cybersecurity Trainee – SOC & VAPT (Academic / Lab-Based)

Institute of Advanced Research, Gandhinagar

Aug 2025 – Jun 2026

Gandhinagar, Gujarat

- Monitored security events and investigated Indicators of Compromise (IoCs) in simulated Security Operations Center (SOC) environments.
- Performed Vulnerability Assessment and Penetration Testing (VAPT) on web applications and laboratory environments using industry-standard methodologies.
- Conducted reconnaissance, network enumeration, and port scanning using Kali Linux, Nmap, Wireshark, and related security tools.
- Utilized Wazuh, OWASP ZAP, Burp Suite, FTK, Autopsy, and Scapy for log analysis, threat detection, and practical cybersecurity exercises.

Cyber Security Intern

Redynox

Mar 2026 – Apr 2026

Remote

- Performed web application Vulnerability Assessment and Penetration Testing (VAPT) using OWASP testing methodologies.
- Identified SQL Injection, Cross-Site Scripting (XSS), and Cross-Site Request Forgery (CSRF) vulnerabilities using OWASP ZAP and WebGoat.
- Analyzed network traffic using Wireshark and gained practical experience in firewall configuration and secure networking practices.

PROJECTS

Cyber Security Job Agent – Automated Daily Cybersecurity Job Finder

Jul 2026

- Developed a Python-based automation system that aggregates cybersecurity jobs from multiple platforms using web scraping and public APIs.
- Implemented duplicate filtering, SQLite storage, and automated HTML email reports with CSV attachments.
- Deployed the application using GitHub Actions for fully automated cloud-based daily execution.

Advanced Packet Sniffer – Python & Scapy

Jun 2026

- Built a network packet sniffer using Python and Scapy for live traffic capture, protocol analysis, and security monitoring.
- Implemented TCP, UDP, ICMP, DNS, and HTTP/HTTPS filtering with packet search and suspicious traffic detection.
- Exported captured traffic to TXT, CSV, JSON, HTML, and PCAP formats for Wireshark compatibility.

Secure Multi-Factor Authentication System

May 2026

- Developed a secure Flask-based authentication system using Google Authenticator (TOTP) Multi-Factor Authentication.
- Implemented bcrypt password hashing, QR-code setup, email verification, password recovery, and account lockout mechanisms.
- Designed an administrative dashboard with authentication logs, security analytics, and user management features.

TECHNICAL SKILLS

Programming: Python, SQL, HTML, CSS

Cybersecurity: SOC Monitoring, Threat Detection, Incident Response, VAPT, Digital Forensics, Web Application Security

Security Tools: Kali Linux, Wireshark, Wazuh, Burp Suite, Nmap, Scapy, FTK, Autopsy

Networking: TCP/IP, UDP, ICMP, DNS, HTTP/HTTPS

Version Control: Git, GitHub, GitHub Actions

EDUCATION

Institute of Advanced Research, Gandhinagar

Aug 2025 – Present

M.Sc. in Digital Forensics & Cyber Security

Relevant Coursework: Digital Forensics, Cyber Law, Network Security, Wazuh, Incident Response

Marwadi University

2022 – 2025

Bachelor of Computer Applications (BCA)

CGPA: 7.61 / 10

CERTIFICATIONS

PwC US – Cyber Security Consulting

Deloitte Australia – Cyber Job Simulation

Cisco Networking Academy – Networking Basics

Reliance Foundation – Security Analyst

Reliance Foundation – Data Privacy Analyst

Mastercard – Cybersecurity Job Simulation

Tata – Cybersecurity Analyst Job Simulation

Commonwealth Bank – Introduction to Cybersecurity

Reliance Foundation – Application Security Analyst

ADDITIONAL INFORMATION

Areas of Interest: SOC Operations, Blue Teaming, Threat Hunting, Incident Response, Digital Forensics, VAPT

Languages: English, Hindi, Gujarati
